Subject: RE: test

Jackie,

Thank you for speaking earlier today about RMA's meeting request. As discussed attached is the meeting request we sent to Dr. Thomas Burke regarding EPA's research protocol on crumb rubber. We look forward to bring our consultants from Cardno ChemRisk to a meeting with EPA on the research protocol.

We are available for a meeting on the following dates and prefer to meet on November 3rd or 4th if these dates work for EPA.

Thursday, November 3rd – any time after 1pm

Friday, November 4th – any time after 1pm

Thursday, November 10th – any time after 1pm

Julie Panko from Cardno Chemrisk will attend the meeting in addition to myself and my colleague Tracey Norberg at RMA.

During the meeting we plan to discuss the following:

- Recommendations for additional soil samples
- Analytical techniques for evaluating crumb rubber
- International sources of data available to determine availability of toxicology data and health-based screening levels

Again, we look forward to meeting with EPA. Thank you for helping to coordinate this meeting.

If you have any questions please contact me.

Best,

Sarah E. Amick
